SUMMARY

As a fresher Java Full Stack Developer, I have a strong foundation in Java programming, web development, and database management. Proficient in front-end technologies like HTML, CSS, and JavaScript, along with back-end frameworks like Spring Boot and database systems such as MySQL. Dedicated to continuous learning, problem-solving, and contributing effectively to dynamic development teams.

SKILLS

Languages: HTML, CSS, Bootstrap, JavaScript, SQL, Core Java, Advance Java, Spring boot.

PROJECTS

HTML,CSS, JAVASCRIPT

Norway Website   https://gowri-priya-chandran.github.io/norway2/

This project is a tourism website showcasing Norway natural beauty, particularly the Northern Lights and scenic landscapes. It features sections for booking accommodations, information about attractions, location options, and services offered. The design is modern, with smooth scrolling and interactive elements like dropdown navigation and booking forms. Social media integration and quick links provide additional engagement and information for visitors.

Springboot

Student Registration

This is a Spring Boot web application(MVC) with CRUD functionality for student records. It uses Thymeleaf for templating and JPA for database interaction.

Java,MYSQL

Dynamic Online Marketplace

Developed a dynamic e-commerce platform using Java Servlets, JSP, JavaScript, and MySQL, featuring user registration, secure authentication, product management, cart functionality, order processing, and scalable database integration. Implemented responsive design, robust security measures, and a seamless user experience, showcasing expertise in Java web development and database management for scalable and secure e-commerce solutions.

HTML,CSS

Amazon clone website   https://gowri-priya-chandran.github.io/amazon1/

I implemented a tourism website project inspired by the design and functionality of Amazon's website, this project successfully implemented by employing HTML and CSS J

EDUCATION

8/2018 - 7/2022	**B.E. Biomedical Engineering - CGPA - 8.4**	**College**
	Agni college of Technology	
12/2023 - 5/2024	**Java Full stack Developer**	**Course**
	HTML,CSS,Bootstrap,Javascript,MySQL,Core Java,Advance Java,Spring boot	
2017 - 2018	**Higher Secondary School Certificate**	**School**
	Sri Vivekananda Matriculation Higher Secondary School	

INTEREST

- Problem-solving in programming languages training at Besant Technologies in Velachery, Chennai.
- Learning new skills

LANGUAGES

English, **Telugu** - native, **Tamil**
